By signing this form, you authorize Berkey Engineering to proceed with design of the work described above. Completed drawings shall be provided after complete payment has been received.

The following items are excluded from this Scope of Work, but may be provided at additional cost:

- Design/documentation of mechanical, electrical, plumbing, drainage, architectural, or other nonstructural building systems.
- Quality control oversight of construction and review of material submittals from suppliers.
- Site visits. The Client will be responsible to provide all required information about the existing conditions.
